

CODES, STANDARDS AND REGULATIONS

Scope: The specific regulations, codes and standards referenced in these Standards should not be considered as a complete listing of all requirements. Other authoritative guidelines should be referenced by the AE and applied consistent with good practice to achieve the required institutional quality. All new construction and remodeling work at the University of Nebraska-Lincoln must comply with the following requirements.

Definitions: Following are working definitions of the terms “regulations”, “codes” and “standards” as used within the *University of Nebraska-Lincoln Design Guidelines*

1. **Regulations:** Regulations are rules or statutory requirements of government agencies such as the Federal Government, the State of Nebraska and the University of Nebraska-Lincoln.
2. **Codes:** Codes are sets of rules and guidelines for design, prepared by a designated governmental and/or professional group, which are intended to protect public safety and welfare. Some Standards are recognized as Codes.
3. **Standards:** Standards are requirements set by authorities, custom or general consent and established as criteria by UNL.
4. **Authority Having Jurisdiction (AHJ):** The University of Nebraska-Lincoln is the AHJ on Code interpretation. The UNL Building Official serves as the AHJ for the UNL system.

Regulations, Federally Mandated:

Americans with Disabilities Act (ADA)

DHHS:

Title V: Handicapped Accessibility

Title IX: Regulations Prohibiting Sex Discrimination in Education

EPA:

40 C.F.R. Chapter I: Protection of the Environment

40 C.F.R. 61 Subpart M: Asbestos NESHAP

40 C.F.R. 763 Subpart E: AHERA Asbestos in Schools

40 C.F.R. 745: Lead-Based Paint Poisoning Prevention in Certain Residential Structures

OSHA:

29 C.F.R. 1926: Construction Industry

29 C.F.R. 1910: General Industry

SHPO:

National Historic Preservation Act of 1966, as amended

USDOT:

49 C.F.R. Parts 100-185: HAZMAT

HUD:

24 C.F.R. 35: Lead-Based Paint Poisoning Prevention in Certain Residential Structures

CODES, STANDARDS AND REGULATIONS

Regulations, State Mandated:

Codes:

ANSI/ASME:

Standard 17.1, Safety Code for Elevators and Escalators, 2007/CSA B44-07 and Performance-Based Safety Code for Elevators and Escalators (ASME A17.1-2007/CSA B44.7-07
Standard 17.3-2008, Safety Code for Existing Elevators and Escalators
ASME A17.2-2007 Guide for Inspection of Elevators, Escalators and Moving Walks
ASME A18.1-2008 Safety Standard for Platform Lifts and Stairway Chairlifts
ASME QE1-1-2007 Standard for the Qualification of Elevator Inspectors
Standard B31.4-95 Boiler and Pressure Vessels Code

ASCE:

ASCE 21-Part 1 2005/2006, ASCE 21 Parts 2-4 2008

International Building Code, 2009 Edition

International Energy Conservation Code, current adopted edition (2009)/**ASHRAE 90.1-2007**

NFPA 101, Life Safety Code, National Fire Protection Association, as currently adopted by the Nebraska State Fire Marshal (2000)

Applicable NFPA pamphlets currently listed by the Nebraska State Fire Marshal

ANSI Standard A17.1 for Elevators and State of Nebraska Elevator Inspector requirements.

International Plumbing Code, 2009 Edition.

International Mechanical Code, 2009 Edition

International Fuel Gas Code, 2009 Edition

International Existing Building Code, 2009 Edition

National Electrical Code (NFPA 70) 2011 Edition

Standards:

AAADM:

American Association of Automatic Door Manufacturers

AAN:

American Association of Nurserymen.

AAMA:

American Architectural Manufacturers Association (AAMA) 101: Appendix Dissimilar Materials.
